

AVIATION PROGRAM

BSI

Badger Skills International is a business consulting and business services firm that specializes in a wide of array of services like management consulting, education consulting, event planning, reality, digital marketing and web development. Our management consulting services at Badger provide practical answers to real-world business problems including people, technology, data, and finances. Our business and management consultants give strategic leadership and transformational insights to businesses and organisations, based on years of expertise.

INTRODUCTION

Aviation is the science and practice of flying heavier-than-air aircraft, such as airplanes, helicopters, and gliders. The term comes from the Latin word Avis, which means "bird".

aviation, the development and operation of heavier-than-air aircraft. The term military aviation refers to the development and use of military aircraft, while the term civil aviation refers to all nonmilitary aviation, such as air transportation provided by airlines or the carrying of cargo by commercial aircraft.

BENEFITS OF AVIATION

- Job security and competitive pay

The aviation industry is in high demand, and there is an increased demand for almost every position.

- Job creation

Aviation directly creates jobs, and also indirectly creates jobs in other sectors.

- Humanitarian aid

Aviation supports the delivery of humanitarian aid to areas affected by war and natural disasters.

- Sustainable aviation fuel

Sustainable aviation fuel (SAF) is a safe alternative to traditional jet fuel that can help the aviation industry reduce its carbon footprint.

- Flexible work schedules

Pilots often work an average of 2-3 weeks a month, which can provide flexible work schedules.

- Better location data

Better location data can help aircraft fly closer together, fly more direct routes, and reduce fuel consumption and delays.

- Career advancement

A BBA in Aviation can provide the skills and knowledge to pursue careers in various areas of the aviation industry.

- Reduced global poverty

Aviation has helped reduce global poverty by creating international distribution routes.
